

FLEET AND DRIVER MANAGEMENT

OPTION #1: TRACKING

- Vehicle tracking
- Trailer/high-value asset tracking
- Low cost/easy install

OPTION #2: TELEMATICS

Tracking **plus:**

- Engine diagnostics
- Driver behavior monitoring
- Reporting

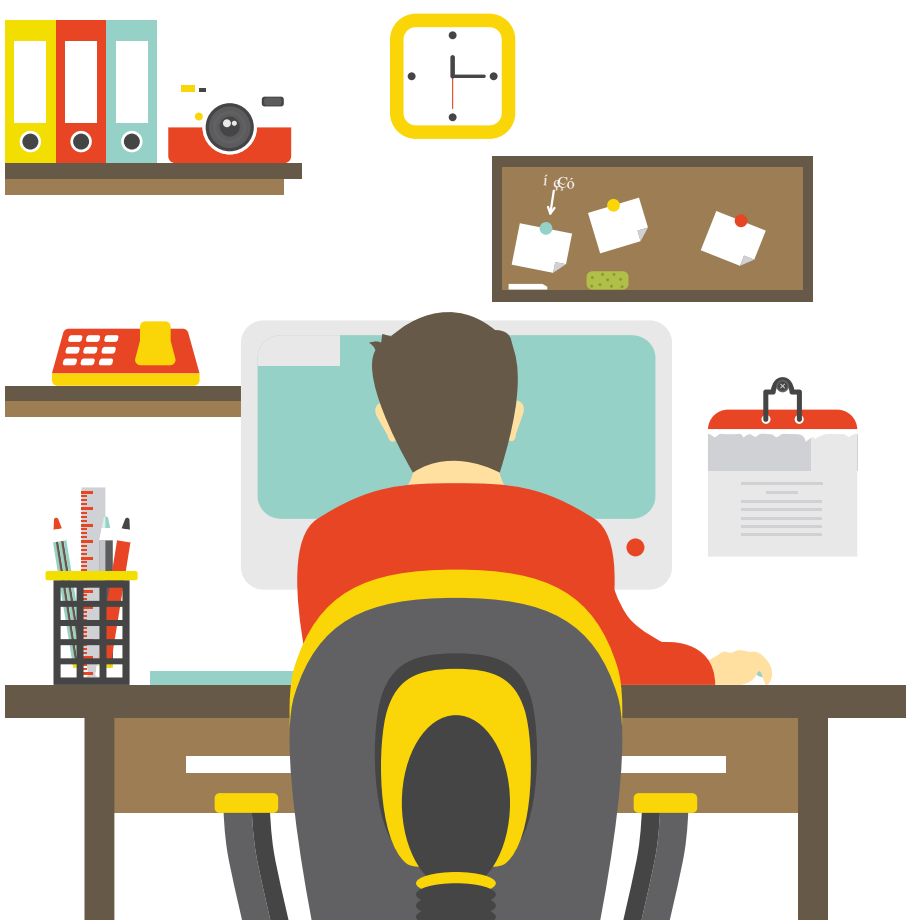

Work alone (Optional)

OPTION #3: COMPLIANCE & SAFETY

Tracking, telematics **plus:**

- Electronic driver logs
- Driver vehicle inspection
- Navigation
- Lone worker
- Driver coaching
- Two-way messaging

OPTION #4: DISPATCH / FIELD TICKETING

Tracking, telematics, mobile computing, **plus:**

- Customized electronic dispatch
- Integration to your existing systems
- Integration to other on-board devices
- Solution tailoring to your unique requirements

Ready to go with off-the-shelf functionality, options one, two and three can be deployed immediately. Option four can be implemented when desired based on a fleet's time, budget and needs. AssetWorks' remote programming software makes upgrading and adding new technology quick and easy.
