

ELDs: Electronic Logging Devices

AssetWorks FSS puts Electronic Logging Devices (ELDs) in your vehicles and Hours of Service (HOS) software in your office to simplify transportation management. Our HOS software allows fleets to benefit from greater compliance with lower administrative costs while creating safer operations. ELD features include:

- FMCSA and Transport Canada
- Certified Rules set for both the U.S. and Canada
- Rich administrative back-end portal
- Easy to use interface with minimal training

Simplify with Compliance

With the implementation of increasingly complex regulations surrounding Hours-of-Service (HOS) for the trucking industry, AssetWorks ELD makes Federal Motor Carrier Safety Administration (FMCSA) and Transport Canada compliance effortless and straightforward.

- Real time view of duty cycle status
- Duty status alerts for driver
- Simplify audits
- Driver web portal
- Violation & exception reporting
- Faster roadside inspections
- Mileage summaries by driver

Field Service Solutions (FSS)

Support Deployment

Getting off on the right foot is important when it comes to deployments. AssetWorks FSS assigns project managers to help guide you through the process. With our ELD solution, you'll be able to receive 24/7 ELD support for your drivers. This service allows drivers and ELD system administrators to call day or night with any questions about their ELD and let them talk to our expert professionals.

Beyond Compliance

Leverage your ELD investment to take advantage of the wide range of modules offered by AssetWorks

- Dispatching and Field Ticketing
- Driver Vehicle Inspection (DVI)
- GPS/Telematics tracking & reporting
- Trailer Tracking
- Monitor Safe Driving habits
- Maintenance reporting capabilities

Hassle-Free Hours of Service Tracking ROI Can Count On

Improved HOS compliance and safety ratings

Faster roadside inspections

Lower operational costs

Reduced vehicle downtime

Easily monitor driver performance

Eliminated driver violations or fines

Better resource utilization

Increase driver safety with real-time driver alerts when driving limits are reached

Complete easy-to-access data for audits

About AssetWorks FSS

With over 30 years of deploying in-cab mobile computing devices and fleet management technology, AssetWorks Field Service Solutions has a proven track record of success. By implementing and thoroughly testing our ELD products, we provide confidence to our clients that our products meet the requirements of the ELD mandate, while offering additional functionality.

AssetWorks is a financially stable and reliable company, so you can be sure that we are an ELD provider for the long-term and will update our solution in the event of any regulatory changes. FSS suite of products is made up of different solutions from simple GPS tracking of vehicles & assets to fleet dispatch, field ticketing, driver behavior, electronic driver logs & vehicle inspection. All these benefits allow you to improve your processes and help you increase efficiency within your business.
